

# WHO ARE YOU?

## Making the most of Personalities in the Workplace

***The workplace is full of personalities!*** Who are you and... who are you working with?

Are you:

- Decisive and in charge?
- Entertaining with high energy?
- Mellow, easygoing and adaptable?
- Highly creative, organized and punctual?
- Angry when others don't follow?
- Compulsive and easily distracted?
- Indecisive and a procrastinator?
- Critical and moody?

Every personality brings something different to a work environment—some positive and some negative. Differences can create conflict, but they don't have to! By understanding why people act the way they do, you can learn to maximize your natural gifts and abilities, minimize your weaknesses, build rapport and improve communication between your colleagues, coworkers, employees and clients. Get your workplace functioning at its full potential. Contact Barbara T. Marshall to schedule an eye-opening, entertaining and highly practical workshop for your office today! (Includes Personality Profile for all participants.)

Note: This seminar is also a perfect choice for high school and college students!
